## TESTIMONIAL

"Ms. Mamta was an excellent teacher for my SAT Math prep. Her math lessons were super clear and showed me quick tips that aren't covered by school teachers. Classes were super flexible even though I live in the US; we had completely different time zones, but she accommodated my schedule. She gave abundant resources that helped me practice. Thanks to her help I got a near perfect math score, 790/800!"

- Mohammad S, Wylie High School, Texas

"They explained every concept clearly and always made sure I actually understood the material instead of just memorizing it. Their tips and strategies made a huge difference in how I approached the math section, and I saw my practice scores go up fast. They were patient, encouraging, and made even the hard topics feel manageable. I'd definitely recommend them to anyone who wants to boost their SAT math score!"

- Aarushi K, Mechanicsburg, USA

"I would strongly suggest Envisage academy and its founder Ms. Mamta who has been instrumental in helping my daughter with her SAT preparation. Over the last few months Mamta ma'am has taken personal interest in helping to identify and strengthen the weak areas my daughter was struggling in. She and her team are extremely flexible and work round the clock. She is an extremely skilled tutor who genuinely wants to see your child achieve the best they can."

- Tonisha J, Parent, HK
